WE SAY NO.

SOME MERCHANTS SAY THAT THE

Is on the wane. It may be with others, but it is NOT SO HERE. In fact, the way the sales of this department keep up is phenomenal. NO, the DRESS TRIMMING business is decidedly not dull here. Were you in Saturday? The TRIMMING DEPARTMENT looked as if presidential reception were being held there, so great was the throng, and they were all buying, too. What was the reason? Why, simply this: Our modern methods of doing business. WE don't wait until the season is over to reduce goods, when you cannot use goods. We look around the market for Trimming that we can buy at a close price and offer to our patrons at a much lower price than they can buy them e'sewhere; and when we have anything to reduce where; and when we have anything to reduce we reduce it while you have use for it. Here is a modern method for an illustration: We have just received the last shipment of those exqui-nite Paris Headings in all of the newest spring effects. Regular prices range from 75c. to \$2 per yard. We throw out the whole assortment (32 styles in all) as a leading trimming card for

THE ROOM WAS INADEQUATE.

Last week we moved our Embroidery Departand, notwithstanding the increase of our counter room, the space was inadequate to accommoroom, the space was inadequate to accommodate the customers at this department. Today we will have more room, as we have CLEARED off a large counter in the center of the store especially for our Bargain Flouncings. Have you seen them? \$3.50 goods for \$1.50, \$3 goods for \$1.38 and so on. This spring's goods, too. It seems absurd to sell them for these prices, but this is one of the MODERN METHODS.

IT IS "NIP AND TUCK". By some unaccountable reason there has sud-denly sprung up with us a wonderful increase in our Umbrella sales. They are buying them for Sun Umbrellas. We always sold a great many at this season, but for the past week it has been "nip and tuck" between the Umbrellas and the Parasois and yet you will find SPECIAL prices here in both

"By a thorough knowledge of the natural laws which govern the operations of disestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the Judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maiadles are floating around us ready to attack wherever there is a weak point. Scottdale, Pa., April 20.—Rioting by the strikers continues in the coke regions. The Leisenring No. 2 plant of the Frick Coke Company has been kept in an uproar continuously since Saturday right. The restaurance of this city, who is regarded as one of the most adroit politicians that Virginia has produced in recent times, will put himself on good terms with the alliance people if possible, and try to dissuade them from nominating independent candidates, but in spite of democratic efforts many independent nominations will be made, especially in old republican distincts. since Saturday night. The works are surrounded by the mob day and night. Explosions of bombs, firing of guns, blowing of horns and beating of cans can be heard at all hours. The whole community seems to be dazed and no one knows what moment the word may come.
